Citation: Mohammad B. Javanbarg, Carola Di Allesandro, Sinan Akkar, Sergei Arefliev, Ruben Boroschek, Graeme McVerry, and Saburoh Midorikawa (2013) Database of recorded waveform, report produced in context of GEM GMPE project, available from <http://www.nexus.globalquakemodel.org/gem-gmpes>

ABSTRACT

This report summarizes a list of earthquake ground motion databases that are publically available. The databases include ground motions recorded in different parts of the world. This is Task 5 of the GEM Global GMPEs project coordinated by the Pacific Earthquake Engineering Research Center (PEER), University of California, Berkeley. Checking the accuracy of the databases was not part of the scope of Task 5; thus, the users of the databases are responsible to check the accuracy of the data and metadata.

Keywords: GMPE, database, ground motion, hazard

ACKNOWLEDGEMENTS

This study was funded by the GEM Foundation as part of the Pacific Earthquake Engineering Research Center's (PEER's) Global GMPEs project. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the authors and do not necessarily reflect those of the sponsors.

AUSTRALIA:

- Geoscience Australia and predecessor(e.g. AGSO): www.ga.gov.au/

SOUTH AMERICA:

- [Guerrero Accelerograph Network](#), Mexico, Seismological Laboratory, UNR, and the Instituto de Ingenieria, UNAM, <http://www.seismo.unr.edu/>

EUROPE:

- Italy: <http://itaca.mi.ingv.it/ItacaNet/> and <http://www.geoscienze.units.it/>
- Switzerland, [Swiss National Strong Motion Network](#), Swiss Seismological Service: <http://www.seismo.ethz.ch/index>
- Turkey, [SMA Network of Turkey](#), Earthquake Research Department: <http://angora.deprem.gov.tr/>
- Greece, [Institute of Engineering Seismology and Earthquake Engineering](#), (ITSAK), <http://www.itsak.gr/>

- Macedonia: [Seismological Observatory, Skopje, Macedonia](http://seismobsko.pmf.ukim.edu.mk/), <http://seismobsko.pmf.ukim.edu.mk/>
- Russia: [Strong Motion Data Base \(SMDB\)](#) of the Center of Geophysical Data Studies and Telematics Applications (CGDS) of Joint Institute of Physics of the Earth (JIPE) Russian Academy of Science

Integrated network <http://www.seismicportal.eu/jetspeed/portal/aboutPortal.psmi> developed under the [NERIES project](http://www.neries-eu.org/) (<http://www.neries-eu.org/>), offers waveforms by a range of European observatories:

- Earthquake event data: the EMSC-coordinated [observatories](#).
- Broadband waveform data: the Virtual European Broadband Seismic Network ([VEBSN](#)) and the European Integrated Waveform Data Archive ([EIDA](#)), both coordinated within [ORFEUS](#),
- Acceleration waveform and parameter data: the acceleration networks.
- Historical earthquake data: Archive of Historical Earthquake Data ([AHEAD](#)).

Table 1.1 List of institutions, organizations and observatories in Europe.

European-Mediterranean Observatories (mainly velocity sensors - seismographs)			
Last update: March 12, 2012			
This list maintained by ORFEUS and EMSC contains all known institutes, organizations, observatories, universities, etc which operate seismograph stations in the region. NOTE: Please, contact Torild van Eck or Rémy Bossu for improvements and/or comments.			
Country	Town	Institute	ORFEUS Contact
Albania	Tirana	Institute of Geosciences	Ismail Hoxha
Algeria	Alger	Centre de Recherche en Astronomie, Astrophysique et Géophysique (CRAAG)	Karim Yelles
Armenia	Yerevan	Institute of Geophysics, National Academy of Sciences of Armenia	
Austria	Vienna	International Data Center of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organisation (IDC-CTBTO)	Lassina Zerbo
Austria	Vienna	Zentralanstalt für Meteorologie und Geodynamik (ZAMG)	Peter Melichar
Azerbaijan	Baku	Republican Seismic Survey Center of Azerbaijan National, Academy of Sciences (RSSC-ANAS)	Gurban Yetirmishli
Belarus	Minsk	The Centre of Geophysical Monitoring of the National Academy of Sciences of Belarus	Arkady Aronov
Belgium	Brussels	Royal Observatory of Belgium (ROB)	Thierry Camelbeeck
